	Examiner Marissa L Ferguson	Art Unit 2854	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Silverbrook et al. (US Patent 6,447,113).

Regarding claim 1, Silverbrook et al. teaches a body complementary to a removable inkjet cartridge (32) of a type having a page width print head (142,143) and an ink supply (Column 36, Line 59), a data connection point fast with the body for receiving data signals defining images for printing from an external data source (Column 6, Lines 50-60, Column 31, Lines 47-52, Figure 8A, elements 80,82,86, Table 33 and many reference made throughout prior art) and a processor (181) coupled to the data connection point and arranged to operate the page width print head in response to the data signals to print said images (Column 6, Lines 57-60, Column 32, Lines 14-19 and many reference made throughout prior art).

Regarding claim 2, Silverbrook et al. teaches wherein the body defines a recess to receive the removable inkjet cartridge (32).

Regarding claim 3, Silverbrook et al. teaches a power connection point for receiving operative power from an external power source (Column 9, Lines 32-45 and Column 11, Line 20).

Response to Arguments

2. Applicant's arguments filed 10/25/04 have been fully considered but they are not persuasive. Specifically regarding claim 1, the applicant has not positively claimed the cartridge. Since the claim language directed to the cartridge does not define a structural element, this language is not sufficient to define over the prior art.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
